

Dual-Adjustable Front Coilover Systems

■ Classic Performance Products (CPP) offers a complete, bolt-on coilover system designed to lower and dramatically improve the handling of your Chevy, by allowing the use of a longer and lighter spring. The threaded aluminum body allows ride height and shock compression and rebounded adjustments. Each kit includes dual-adjustable aluminum body shocks, specially designed conical springs, and hardware. A free spanner wrench and thrust bearing kit is available for a limited time! Systems start at just \$449. All CPP parts come with a lifetime warranty.

Stage 1 Pro-Touring Kit

■ Classic Performance Products' (CPP) Pro-Touring kits provide the ultimate performance and handling at an affordable price. Kits include front and rear Pro Touring antisway bars, front coil springs, rear lowered leaf springs, front and rear performance gas shocks, and Totally Tubular front upper and lower control arms. All control arms are preassembled with the ball joints, cross-shafts, and pivot sleeves and have a safety feature that captures both sides of the bushing. This unique feature allows full control and virtually no flex on the control arm. Kits start at just \$1,499. All CPP parts come with a lifetime warranty.
